Please Note When Visiting Marineland Dolphin Adventure:

- Marineland Dolphin Adventure is an **outdoor** venue. Please consider the weather when planning your visit with us. It is important to make sure children are equipped with proper attire and sunscreen to ensure they have the most valuable learning experience.
 - **Heat:** Be sure to bring plenty of water for all students. We do our best to provide shade and misters for our guests to stay cool. We do not have water fountains that will be easy for students to access throughout the visit as many places our guests must be escorted by staff. **Bringing reusable water bottles to provide to students is the best way to ensure they stay hydrated.** If they bring in their own bottle, we can have them fill them at various filtered water stations or bottled water may be purchased upon arrival.
 - **Rain:** We will continue our lessons as normal, rain or shine. Some outdoor lessons can be moved to an indoor location depending on your group size and we will work with each group individually based on their needs.
 - **Lightning Warnings:** If there are any lightning strikes within a **5 mile radius** of Marineland, we will close our habitats, move everyone indoors, and any outdoor activities will be postponed. Any Behind the Seas Tours will continue as normal during a lightning warning.
- Restrooms are located inside the gift shop. They are not located in the habitat area so it is best to plan to utilize the restroom prior to your scheduled check-in time.
- Food is not sold on site. **If you are planning to stay for lunch, please instruct students to pack an eco-friendly lunch with minimal waste.** Minimizing single-use wastes such as yogurt cups, plastic bags and cutlery is important for the conservation of our oceans and all the beautiful animals that live in it!
- Anyone age 2 and under is free of charge and does not count towards your total count but will need to be supervised throughout your visit.

Marineland Dolphin Adventure Guidelines

To ensure the enjoyment and fun of all our guests, we would like to provide you with some guidelines for your group. Please review these with your staff/chaperones and children prior to your arrival so that you may maximize your learning experience at Marineland Dolphin Adventure.

- Standing on chairs or window sills is prohibited. The viewing windows provide excellent opportunities for observing animals in the water. “Kid Zone” platforms allow children to observe the dolphins and the people above the water. Guests should refrain from standing anywhere that may be unsafe for them or the animals.
- When walking around the top of our habitats, all guests are required to stay behind the blue line that surrounds the edge of our pools.
- Pictures are allowed throughout our facility, however, nothing should be held over the water at any time. Please ensure all cameras stay over the land when taking photos. Cameras are not allowed next to the pools during any encounter programs. Guests who are participating in an encounter will be asked to put them aside.
- For yours and our dolphins’ safety - garbage, rocks, plants, fingers and toes must stay out of the water!
- The toys you may see the dolphins with have been specifically chosen for them based on a variety of characteristics ensuring their safety. Additional toys should not be brought into the facility and absolutely may not be thrown into the water.
- Unless your organization has booked an interactive program your group should simply expect to observe our dolphins.
- Running and horseplay is prohibited for safety reasons. Likewise, we would ask that all guests stay off rocks, stones, and statuary. Pictures may be taken *next* to these pieces. We thank you for helping us preserve these relics by not climbing on them.
- Marineland Dolphin Adventure is a facility designed to promote humane education. We do this by encouraging compassion and respect for all animals and the environment. We expect the behavior of all our guests, including students, teachers, and chaperones to be aligned with these goals.

Please call the Group Sales Department at (904) 471-1111 ext. 114 with any additional questions or to reserve your program.
