

Marineland's Touch & Play Dolphin Interactive Field Trip Option

Marineland offers our Touch & Play Dolphin Interaction exclusively to field trip groups. Marineland's Touch & Play Dolphin Interactive Field Trip is a ~5-minute out-of-water experience where your students will have the opportunity to get to touch, play and interact with one of our 15 bottlenose dolphins. For **\$27/student**, we invite you to bring your students to enjoy the Touch & Play (Including the digital photo package), in addition to our self-guided schedule activities listed below.

- **Shark Talk:** An Educational Talk on all our Sand Tiger Sharks, the importance of sharks to our oceans, and shark conservation.
- **Turtle Talk:** An Educational Talk about Sea Turtles, including our Loggerhead sea turtle's story and sea turtle conservation.
- **Dolphin Talk:** An Educational Talk provided by one of our Marine Mammal Specialists and of course our Marineland Dolphin Family members!
 - 11:15 AM & 2:30 PM (For the Fall & Winter Months); May be different times depending on the season
- **Sea to Shore Aquarium Tour:** Your group will experience a private tour through our in-door aquarium filled with fish, corals, eels, sting rays, and more.

The Touch & Play program is offered **twice a day in the morning and afternoon**. We can accommodate groups of **10 - 80 people in each time slot**. Please note if you have a larger group and are interested please reach out to educoord@marineland.net as we may be able to accommodate. For our programs, we typically divide the groups into groups of 10 individuals per dolphin, with at least one adult in each group, and may complete the program in waves in order to maximize dolphin time. For our Touch & Play program, we have a waiver that you will receive during the booking process that will have to be filled out by all participants (teachers, chaperones, and students (if under 18 years of age, a parent or guardian must fill out the waiver for the student)).

To increase the educational value and interactive opportunities for your students, our professional education staff proudly offers the following additions to your standard educational visit:

- **Lesson Add-Ons:** Complete your field trip experience by adding one of our formal classroom lessons focusing on your choice of marine science and marine conservation topics. \$5/student
